

Subject: Information regarding student enrollment in the A' Grade of Primary School for the 2026-2027 school year

Dear parents and guardians,

Please be informed that the period for registrations in the A' Grade of public Primary Schools is set from **March 2nd until March 23rd, 2026**.

Since the European School does not belong to a specific spatial planning area and is not included in the platform for registration in the A' Grade of Primary School, the procedure for interested parents will take place in three stages:

1. Electronic Registration at Your Neighborhood School:

You must submit the registration application to the Primary School in your area (based on home address) through the platform adimotikou.eservices.minedu.gov.gr or the gov.gr portal. In case you cannot access the platform, handwritten registration at the school is required; you will need to go there and submit proof of home address (bill (telephone, water, electricity), lease contract, etc.).

2. Application to the European School (June):

The period from **June 1st to 15th** is when you must send your application to the European School to express your interest in enrolling at the school. If selected, you will be informed in early July.

3. Transfer (September):

Official enrollment in our school will be completed from **September 1st to 10th** through the process of transferring from the school where you registered your child to the S.E.E. Heraklion.

Note: We would like to inform you that students attending the Nursery School of European Education are enrolled with priority in the A' Grade of the Primary School of European Education, and subsequently the number of students is filled with the remaining applications.
