## REGULATIONS FOR LANGUAGE TEACHING

(See Ministerial Decree 179/84525/Z2 article 3 and General Rules for European Schools article 47.e)

### Choice of language section in the secondary

- a. Parents will not be free to choose their child's first language (LI), its determination being the responsibility of the school's Director. LI must correspond to the child's mother tongue or dominant language, in the case of multilingual children, the dominant language being the one of which they have the best command. Hence, the pupil shall be enrolled in the section of his/her mother tongue/ dominant language where such a section exists.
- b. This principle may be waived only where the child has been educated in a language other than his/her mother tongue/dominant language for a minimum of five years at primary or secondary level. The Director will presume in that case that the child will be capable of continuing his/her schooling in the language in question.
- c. If the section corresponding to a pupil's mother tongue/dominant language does not exist, he/she will generally be enrolled in the English language section. Children falling in categories (1) and (2), are entitled to tuition in the language of their language section. Children in categories (3), (4) and (5) will be enrolled only after successfully passing a language test, organised and under the control of the school's teachers.

### Regulations for language teaching

- a. All pupils have to study at least three compulsory languages. It is also possible to choose a fourth language as an option in secondary year 4 and a fifth language as a complementary course in secondary year 6.

No language may be studied at more than one level simultaneously and different languages may not be studied at the same level simultaneously. Level means LI, LII, LIII, LIV and LV.

- b. In secondary years 1-5 the regulations are as follows:
  - LI is taught from primary year 1 and is the language of the section in which the pupil is enrolled.
  - LII is taught from primary year 1: it may only be DE or EN or FR and must be different from LI.
  - In secondary years 3, 4 and 5 a pupil's LII (DE, EN or FR) is his/her vehicular language for human sciences, history, geography, economics and non-confessional ethics.
  - LIII is taught from secondary year 1; it may be any official language of the EU countries not being studied as LI or LII. LIII in year 1 is a beginners' course.
  - LIV is taught as an option from secondary year 4; it may be any official language of the EU countries not being studied as LI, LII or LIII. LIV in year 4 is a beginners' course.
